Mladen Golo (2004)

C (+387) 63 202 830 ☐ mg.capljina@gmail.com ☐ kernel-dev in Mladen Golo

EDUCATION _____

High School of Čapljina

ELECTRICAL TECHNICIAN

Aug. 2019 - June 2023

Fakultet Informacijskih Tehnologija — Džemal Bijedić

SOFTWARE ENGINEERING Oct. 2024 — Present

EXPERIENCE ____

Backend Development (Intern)

NSoft, Mostar

NOVICE BACKEND DEVELOPER

July 3rd, 2023 - August 25th, 2023

• Developed the backend logic of a proof-of-concept terminal application over the course of 2 months, alongside 3 other interns.

Personal Projects _____

OCSysInfo

Light-weight, efficient and cross-platform CLI application for discovering hardware information about the system, written in Python. Available here.

OSX-Mem-Hook

Simplistic example of finding a symbol in memory, then overwriting that region of memory from another process on macOS. Available here.

Poccy

A simple (still WIP) UEFI x86-64-exclusive operating system written in C. Available here.

poccyOSBootloader

A custom UEFI bootloader built for poccy. Available here.

SKILLS _

Programming C (3 years of self-taught experience), C++ (3 years of self-taught experience), C# (3 years of self-taught experience)

taught experience), **Haskell** (1 year of self-taught experience), **Python** (4+ years of self-taught experience), **TypeScript** (6+ years of self-taught experience), **Java** (1 year of self-taught experience)

rience, and 2 months of professional experience)

Front-End React, VueJS

Back-End Redis, NodeJS, MariaDB, PostgreSQL, MongoDB, Spring Boot

Low-level GDB/LLDB, IDA, Basics of Networking

Other knowledge UNIX-based systems, Git version control, CI/CD (GitHub in particular), OS/kernel devel-

opment (familiar with both the Linux and XNU kernels), Unity/UE development

N	10	۱D	Λ	D	$\mathbf{\cap}$		T	M	1E
IV	ИU	JК	H	В	u	u		IV	

Tech-savvy, self-taught 20-year-old software developer eager to expand his knowledge; enthusiastic in developing algorithms, optimisations, proper documentation and systems development. Bringing unique problem-solving approaches and vast personal knowledge where applicable. Particularly interested in systems/embedded development (particularly OS development), backend web development, and many, many more fields.

LANGUAGES __

- English (fluent; native)
- Croatian/Serbian (mother tongue; native)
- German (novice-level)

ACHIEVEMENTS

- Won 2nd place at an international Python programming competition hosted by Raffles University Iskandar;
- Finished a 2-month internship at one of the most powerful companies developing gaming and betting solutions (NSoft. Certificate shown upon request).
- Officially joined Mensa as a member on April 2nd, 2024
